folding homeworker

The Folding Homeworker is a simple, cost effective desk which requires minimal space, making it suitable for all members of staff regardless of their home set-up. By providing an ergonomic desk, it helps reduce health issues such as backache, wrist and neck pain which ultimately makes us less productive.

This high-quality desk requires no self-assembly and is ready to use in just a few seconds thanks to its clever fold up design. Once the working day is over, simply fold down the table and stow it away. Add in an optional chair, monitor stand and/or a store away laptop stand for the perfect home working set-up.

Features & Benefits of the Folding Homeworker
