luxo lockers
datasheet

Extent of Range
Luxo Lockers are available in 800mm wide in 2 heights 1317mm and 1727mm.

Delivery
This range is delivered pre-assembled by the Flexiform installation team, wrapped for protection.

Product Warranty
15 years subject to our standard T&C's. See the Flexiform Standard Warranty document for more information

Lead Time
Please note, Trespa and Fenix laminates are on a 10 week lead time.

Features
Type: Multi-tiered lockers.
Carcass: Welded carcass with riveted back. Side panels have ladder track stiffeners for strength and allows additional accessories to be fitted. Carcass has an inset steel top as standard.
Doors: Mix and match with 1 door, 2 door, 3 door or 4 door configurations. 4 door compartments ony available on 1727mm high units. Door-to-door seamless design. Doors available in steel with RAL painted, Trespa laminate, BioCarbon laminate, Fenix laminate or MFC finishes. Please note, the only door materials which can be mixed is MFC and steel.
Steel Doors: 20SWG Folded assembly with integral stiffener, folded to o/a thickness of 18mm.
Laminate Doors: 13mm laminate doors in either Fenix, BioCarbon or Trespa
MFC Doors: 18mm MFC doors in Flexiform's standard range
Hinges: Supplied as standard with concealed hinges 100° opening.
Locks: 5 lock options: Cam lock, 2 digital keypad options, 2 RFID lock options

. All locks are central to the door panel.
Labels: Small 29mm x 50mm label or large 55mm x 90mm self adhesive label.

Features Continued
Levelling: Floor levelling feet supplied.
Components: 20swg inner panels incorporate 12.7mm slot centres for shelves or trays.

Components
Adjustable shelf and tray. Optional 25mm MFC top.

Dimensions
Heights: 1317mm or 1727mm
Widths: 800mm.
Depth: 475mm.

Product Environmental Certification

flexiform

Materials

MFC Top Panels: 25mm melamine faced chipboard (M.F.C) with 2mm ABS matching edging or contrasting edging. British standard 476 class 1 surface spread of flame. Meets E1 European standards on Formladehyde emissions.

Steel: Powder coated steel with minimum paint coverage thickness of 35 Microns. Indentation, cross cut+adhesion and bend tested.

Fenix NTM®: Multilayer coating and the use of next-generation acrylic resins which are hardened and fixed through an Electron Beam Curing process. With low light reflectivity, their surface is extremely opaque, soft touch and anti-fingerprint. Highly resistant to scratches, abrasion, dry heat, acid-based solvents and household reagents. Micro-scratches in the top can be healed by thermal healing. Unique non-porous external layer, allowing the material to stay neat with simple, everyday care and cleaning methods. They are also suitable for contact with food.

BioCarbon: High pressure laminate with anti-bacterial protection, easy to clean surface. Carbon neutral material.

Trespa: Single sided decorative surface with non-decorative black reverse. Satin finish.
