TOP CODE	FRAME CODE	WIDTH	DEPTH	HEIGHT
ATOP2412E ******* ***	AFRA1608 ***	2400mm	1200mm	740mm

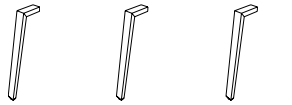

Tip When specifying a cut out MFC top, the order of the cut out dimensions placed within the code changes the orientation of the cut out. For example, a ATOP1408R132X299WHM would get a different cut out to a ATOP1408R299X132WHM. The first measurement in the code is the side of the cut out parallel to the width of the desk.

/cable management

To calculate correct cable management tray for tables, use the size of MFC top and deduct 400mm off the width size. This will ensure the tray sits inside the frame. If the MFC top comes in 2 parts, half the width to get the individual top size, then deduct 400mm. If users are sat at shortest ends of the table, you should further reduce the length of the cable tray by 400mm to allow for knees. See diagram below.

fixed height adjustment kits

Raises the desk by 40mm, 60mm or 80mm. Non adjustable.

The fixed desk can be increased by 40mm, 60mm or 80mm, select ‘40’, ’60’ or ‘80’ for the height code. Ideally the kits need to be specified BEFORE the installation of the desk commences, however desks can be retro fitted at any time. Dismantling of the existing desk will be necessary, please allow for extra time/cost when retro fitting.

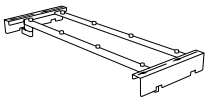

Each type of desking configuration has different requirements and variants in the kits:
For single desk configurations select the code starting with ‘PS’
For back to back configurations where you only want to increase the height of 1 desk, select the code starting with ‘P1’
For back to back configurations where you increase both desk heights, select the code starting with ‘P2’

For example, to specify an all white 1000mm (w) x 475mm (d) x 1090mm (h) hinged door storage the code would be FSL109010JWS07JWS. When ordering a hinged door storage consider our components range.

For storage which meets desk height, select 740mm high storage (includes MFC top as standard).

IMPORTANT NOTE: Hinged Door Storage is all steel with a MFC top as an option. If a steel top is required select the desired steel colour in the *** section labelled 'Top Colour'. If an MFC top is required select a MFC colour. MFC tops incur an additional cost.

/lateral components

Suitable for hinged door storage, combination storage and side filers

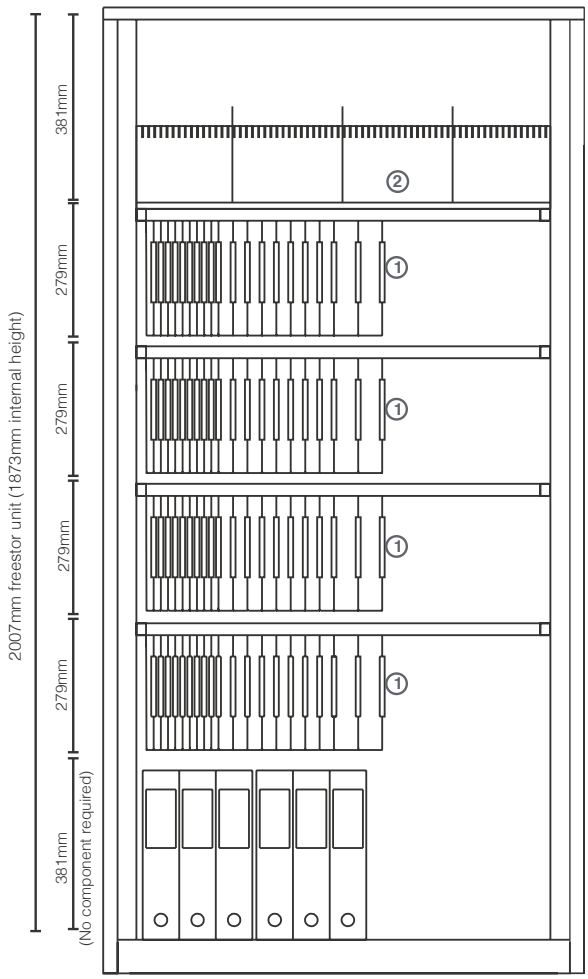

HOW TO WORK OUT THE CORRECT COMPONENTS.
Use the internal height measurement guide to get the internal height of the chosen hinged door storage unit.

For example: 2007mm (h) x 1000mm (w) hinged door storage with 1873mm internal height.
1. Lateral rail for AZV mixed files - 279mm.
2. Slotted shelf - 381mm.
These components together fit into the 2007mm storage unit.

TIPS: The bottom of the storage unit can be used as a shelf if desired. If used remember to leave adequate space before inserting the next component. Any surplus internal space can be distributed throughout the unit.

/tambour components

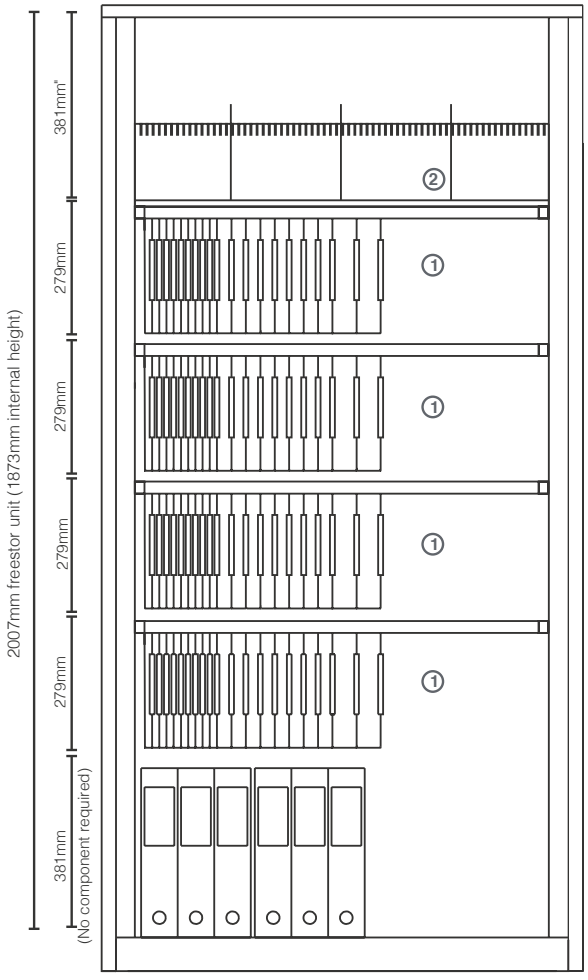

HOW TO WORK OUT THE CORRECT COMPONENTS.
Use the internal height measurement guide to get the internal height of the chosen tambour storage unit. The principles are the same across all types of storage:

For example: 2007mm (h) x 1000mm (w) tambour storage with 1873mm internal height.
1. Lateral rail for AZV mixed files - 279mm
2. Slotted shelf - 381mm.
These components together fit into the 2007mm storage.

TIPS: The bottom of the storage unit can be used as a shelf if desired. If used remember to leave adequate space before inserting the next component. Any surplus internal space can be distributed throughout the unit.

HOW TO SPECIFY A FREESTOR ACCENT LOCKER

L	K	R		*	*	*	*	*	*	*	*	*	*	*	*

CODE (For example: ‘LKR6’)	LABELS (Eg; ‘A’)	P. SLOT (Eg; ‘C’)	HINGES (Eg; ‘D’)	DRAWERS (Eg; ‘E’)	NUMBERING (Eg; ‘F’)	LOCK (Eg; ‘G’)	CABINET COLOUR (For example: ‘PGS’)	TOP COLOUR (For example: ‘PGS’)

For example, to specify an 8 door locker with bottom drawers, post slots, soft close hinges and cam lock with silver plate. Locker: 800mm (w) x 475mm (d) x 1742mm (h), the code would be LKR4CDEHPGSPGS. This range is designed to provide a flexible way of specifying lockers exactly how you want them. If no additional elements are required, move on to the next option. For example, if no labels are required, do not enter ‘A’ or ‘B; and move on to option ‘C’. All interior shelves, trays, number plates are ordered separately. Some locks may need additional items such as cards and software.

If an MFC top is specified on units 1-6, add 10mm to the overall height.

IMPORTANT NOTE: Locker Storage is all steel and can come with a MFC top. If a steel top is required select the desired steel colour in the *** section labeled ‘Top Colour’. If an MFC top is required select a MFC colour. MFC tops incur an additional cost.

CODE (For example: 'ASG1PL3318')										CARCASS COLOUR (For example: 'SGB')			DOOR COLOUR (For example: 'RBB')			CODE (EG: 'G')	LOCK (EG: 'C')

For example, to specify a single 1 door 300mm (w) x 300mm (d) x 1800mm (h) locker, the code would be ASG1PL3318SGBRBBGC.

Metal Lockers are 1800mm high galvanised steel (rust resistant) or mild steel units which are designed to sit together to create any length row of lockers. The lockers are available as 1 door, 2 door, 3 door or 4 door units and all are supplied in anti bacterial paint. Galvanised Steel lockers are suitable for wet rooms and come with feet to raise lockers off the ground.

Standard units come with a camlock or padlockable lock (padlock not included) at no extra cost. If an alternative lock is desired an extra cost will be added. Lock options include coin return locks, electonic, 4 digit combination locks and two point locking handles. Please contact Flexiform for advice on 01274 706 206.

300mm lockers have an opening aperture of 237mm.
450mm lockers have an opening aperture of 387mm.

jot storage components

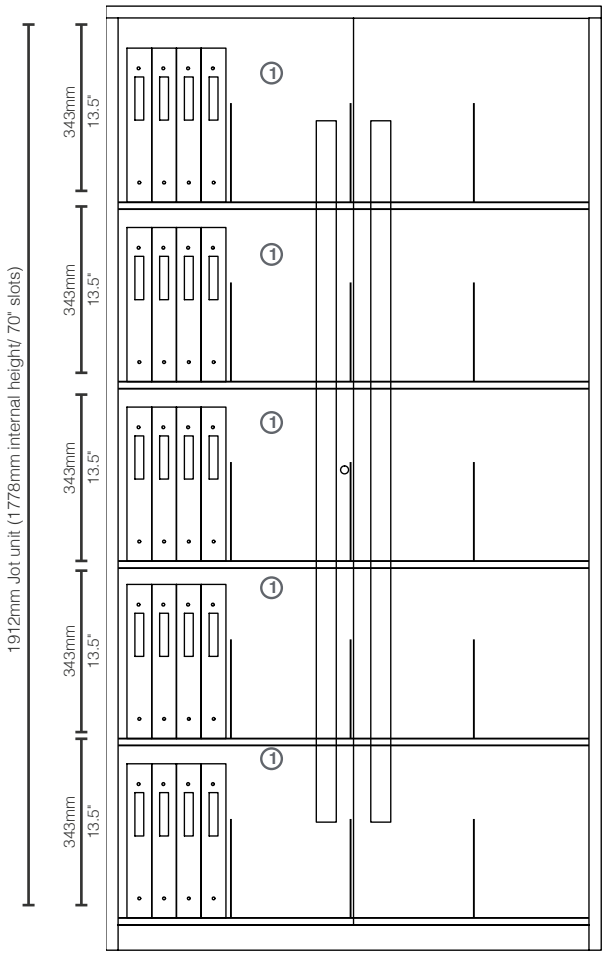

HOW TO WORK OUT THE CORRECT COMPONENTS.
Use the internal height measurement guide to get the internal height of the chosen hinged door storage unit.

For example: 1000mm (w) x 500mm (d) x 1912mm (h) Jot hinged door unit has an internal height of 1778mm. Components chosen:
1. Slotted shelf with divider at 343mm high each.
5 of these components together fit into 1912mm high Jot hinged door.

TIP
The bottom of the unit can be used as a shelf if desired. If used remember to leave space before inserting the next component. Any surplus internal space can be distributed throughout the unit.

flexilink

HOW TO SPECIFY FLEXILINK

F	L	*	*	*	*	*	*	*	*	*	*	*

CODE
(For example: 'FL2140ENDPLAIN')

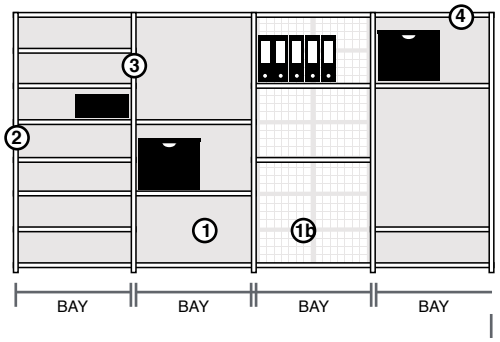

*	*	*

COLOUR
(For example: 'JOS')

For example, to specify an all sliver 5150mm (w) x 400 (d) x 2175mm (h) the codes would be FL2110SOLIDBACKJOS for 2175mm x 1000mm plain backs (Order 4), FL2110VENTBACKJOS for 2175mm x 1000mm ventilated back (Order 1), FL2140ENDPLAINJOS for end panels (Order 2), FL2140MIDPLAINJOS for mid panels (Order 4), and FLSS1004JOS04 for plain shelf packs (Order 9 packs of 4).

Flexilink cannot be used as a single unit, and must have a minimum of 2 bays. Ensure all single sided depths under 500mm are secured to a wall using Flexilink wall brackets. Shelves and back panels must be used to support the unit, however if two units are going back to back only one back panel is used. Linking brackets are required for back to back units for health and safety reasons. When calculating floor space use the width of the shelves selected and add 25mm for every end or mid panel used.

A step by step guide has been added to components to assist specification.

3. Mid panels, as many as desired to create a bay, (3 shown)
4. Shelves (comes in pack of 4's)

flexilink /back panels

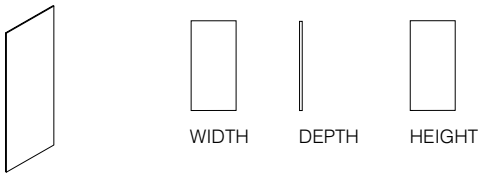

Step 1.

Order back panels.

- You must order 1 back panel per unit bay unless specifying back to back shelving. Back to back shelving unit bays share a back panel.
- All back panels must be the same height.
- Different widths can be ordered (but remember the different widths when it comes to ordering the shelves!).
- You can mix and match with plain or vented panels.

Step 5

Order shelves (All shelves come in packs of 4 with fixing clips)

- Shelves must be ordered to help secure the unit.
- The shelves must match the width of the back panels AND the depth of the end and mid panels.
- You can mix and match with plain or slotted shelves.
- You may want to order a shelf to create the top of the unit.
- Units 500mm deep and under MUST be secured to the wall.
