LUCIE CARR,
SPACE PLANNER

“todd’s simple and quick set-up is great for workspaces that need to quickly adapt to new set ups”

Todd Starter, Extension & End Desk Configured Back-To-Back with a Central Screen

Single Desk

Side-to-Side Modular Desk

*Side-to-Side Modular Desk x2
Placed into a back-to-back desk configuration*

on your todd

The Todd desk is our next generation of single cantilever desks, a new and improved version of our popular Solo desk. Designed and manufactured in-house, the Todd desk is inspired by our local phrase of 'on your todd' - to be by yourself. The new Todd desk can be used as a single standalone desk, or with modular extensions to maximise leg space and reduce cost creating side-to-side or back-to-back configurations.

Ideal for temporary or fast-paced offices with constantly changing team structures, Todd desks are quick and easy to relocate and reassemble and feature a comprehensive cable management system to keep your office looking tidy. The Todd desking range comes equipped with a steel modesty panel and a hidden vertical cable management system (1) for wires to feed up the leg into the rear cable tray (2) and up through the desk cable ports (3).
