JOT COMPONENTS

Each Jot storage has a selection of compatible components which help organise your office filing/ storage and equipment. Components can be mixed and matched to increase flexibility. Use the guides to the right to work

out which selection of components fit in your chosen storage. For advice or a full filing assessment, please call our expert survey analysts on 01274 706206.

STEP BY STEP GUIDE TO WORKING OUT THE CORRECT COMPONENTS.

1. Use the internal height measurement guide to get the internal height of the chosen hinged door storage unit.
2. Using either mms or 1 inch slots as a measurement and the component guide, calculate which combination of components can fit in the storage.
3. Repeat with any additional storage unit.
4. Order the correct component's and accessories if desired. Each components width needs to match the width of the chosen hinged door unit.

EXAMPLE

Unit Example:

Unit chosen: 1000mm (w) x 500mm (d) x 1912mm (h) Jot hinged door unit.

Components chosen:

1. Slotted shelf with divider.

5 of these components together fit into 1912mm high Jot hinged door.

TIP

The bottom of the unit can be used as a shelf if desired. If used remember to leave space before inserting the next component. Any surplus internal space can be distributed throughout the unit.
