## HOW TO SPECIFY JOT DESKS

Jot desks is specified in two parts; the top, and the frame.

FRAME CODE  
(For example: 'JBS0808X12')

FRAME COLOUR \*\*\*  
(For example: 'PGS')

CODE  
(For example: '740S')

TOP CODE  
(For example: 'JRET0808X12')

TOP COLOUR \*\*\*  
(For example: 'MOK')

CODE  
(For example: 'STD')

For example, to specify a complete 1200mm (w) x 800mm (d) x 740mm (h) Jot single desk in a pale grey frame with an oak rectangular MFC top (pictured above) the codes would be JBS0808X12PGS740S and JRET0808X12MOKSTD.

Jot single desks require a different rail depending on whether a screen is to be fixed or not. 600mm desks can not have a sliding top. The rail you order depends on whether a screen is to be attached. If a screen is going to be attached select JUNISL/SCRUPT\*\*\* rail. Select a JSLIDERAILSET\*\*\* if the desk is to be used without a screen.

# JOT FIXED H/A KITS

INCREASES THE DESK  
BY 40MM, 60MM OR 80MM

Pictured Right: Height adjustable kit featured on a 1600mm (w) x 800mm (d) x 740mm (h) back to back desk with 1 extension. One desk adjusted by 40mm. Fixed height adjustable kit in silver. J1HAKIT100840JOSR.

## HOW TO SPECIFY FIXED HEIGHT ADJUSTABLE KITS

CODE  
(For example: 'J1HAKIT')

HEIGHT  
(For example: '40')

COLOUR  
(For example: 'JOS')

LEG STYLE  
(For example: 'R')

For example, to specify a height adjustment kit for a 1000mm (width) x 800mm (depth) rectangular leg desk with a silver kit to raise the desk by 40mm, overall height 780mm (pictured above) the code would be J1HAKIT10840JOSR.

The fixed desk can be increased by 40mm, 60mm or 80mm, select '40', '60' or '80' for the height code. Ideally the kits need to be specified BEFORE the installation of the desk commences, however desks can be retro fitted at any time. Dismantling of the adjacent desk will be necessary, please allow for extra time/cost when retro fitting.

Each type of desking configuration has different requirements and variants in the kits:

For single desk configurations select the code starting with 'JS'

For back to back configurations where you only want to increase the height of 1 desk, select the code starting with 'J1'

For back to back configurations where you increase both desk heights, select the code starting with 'J2'
